

Farmington Hills Tuffy Tire & Auto Transfers Ownership to Long-time Community Residents

We depend on our vehicles for so much these days, using them as workhorse to limousine, cargo hauler to family transportation, so it pays to keep them running smoothly and reliably. Tuffy Tire and Auto Service of Farmington Hills can help you do that – without breaking the bank.

New owners Walt and Kathleen Buraconak, long-time residents of Farmington Hills, have always been actively involved in their community. They have two children in the Farmington School District, and Kathleen works at Alameda Early Childhood Center in Farmington Hills. Walt, a classic car aficionado and Dream Cruise participant with his 1981 Trans-Am, was until recently employed for many years in the automobile supplier business. But, when recent economic events resulted in a change, Walt and Kathleen began to search for just the right business to begin a new chapter in their lives. When the opportunity to own and operate Tuffy, right here in their own community, they felt it was a perfect fit.

Walt and Kathleen invite you to stop by, say hello and have a cup of coffee. The reception area is clean and comfortable, with flat-screen cable TV, hot and cold beverages, and lots of light. While you're there, ask Manager Joe Ammouri about the latest money-saving offers. Tuffy offers complete automobile service and repair, from tires to oil and lube, brakes, exhaust, shocks & struts, heating & cooling, and much more. They have 6 spacious bays and 3 full-time technicians on hand to make sure your car is fixed right and on time.

Tuffy Tire and Auto Service of Farmington Hills is dedicated to offering honest, straightforward service to all who come through the door. Their sense of community and integrity drive us to make sure their customers, neighbors and friends, are well taken care of. Locally-owned, professionally staffed, and conveniently located – Tuffy is the place to treat your car that's worked so hard for you to a new lease on life! Free Courtesy Shuttle is available for those who want drop their vehicle off and then go to work.
