

TUFFY'S BACK-2-SCHOOL SAVINGS!

The pandemic certainly made school "interesting" this past year. First everything shutdown. Then schools started teaching students remotely 100% of the time. Then, we saw institutions deploy a hybrid approach by offering some virtual learning days coupled with a few days a week of onsite/in-person learning. Heading "Back-2-School" last year was anything but business as usual.

While students and their families have been enjoying a couple months to enjoy the summer and finally get a break from the chaos caused by the pandemic, another school year is about to begin. And this time, thanks to the hard work of the medical and scientific research communities who played such a critical role in getting us access to a COVID-19 vaccine, most families will be sending their kids back to school for in-person learning this year ---- that also means soccer games and other after school activities are soon to follow. Now is the perfect time to ensure your vehicle is ready for Back-2-School Taxi Duty at Tuffy! From brakes and tires to oil changes and air conditioning service, Tuffy truly offers complete automotive repair on all types of vehicles. And don't forget, at Tuffy we offer both 6 and 12 month financing options on purchases of \$199 or more with the Tuffy Credit Card.

***From your local Tuffy Tire & Auto Service Center,
be safe and enjoy the Back-2-School season!***
